

Flathead Field

Highlight

New 2,500 seat mitered concrete stadium designed for the Glacier Ridge Range Riders' home field, featuring scenic views of Flathead Valley.

Optimized Solution & Features

- Design Assist & Preconstruction Services
- Hybrid Precast Stadia System
- Galvanized Steel Understructure
- Guardian Style Vertical Picket Rail
- Aluminum Drink Rail

Hybrid Precast Stadia System

- Reduces foundation & support structure costs
- Limitless design options to accommodate various tread depths, guardrail types, seats or column grid
- Maximizes water control & minimizes effects of thermal expansion

Project Partners
