

Rupp Arena

Arena Overview

Goal of updating the upper seating bowl structure and overall aesthetic of this 24,000-seat basketball arena with nostalgic charm, while enhancing the fan experience through Dant Clayton's expertise in renovations.

Provide Solution Highlights:

- Designed and installed new frames
- Long Span Aluminum Riser System within limits of building structure
- Optimized sightlines and comfort by widening rows, allowing for a fixed flip-up chair
- New glass railing to replace former steel rails
- Improved spectator sightlines

- Modernized aesthetic to overall facility

Taking Renovations To The Next Level

- Involved in preliminary design, budgeting, and scheduling
- Creative solution and install of 5,200-seat upper bowl within existing space
- Performed within a tight completion timeframe to ensure all scheduled events were maintained
